

**Urology Soin & KHGM**  
Delineation of Privileges

**Applicant's Name:**

**Instructions:**

1. Click the **Request** checkbox to request a group of privileges.
2. **Uncheck** any privileges you do not want to request in that group.
3. Check off any special privileges you want to request.
4. Sign/Date form and Submit with required documentation
5. Applicants have the burden of producing information deemed adequate by the Hospital for a proper evaluation of current competence, current clinical activity, and other qualifications and for resolving and doubts related to qualification of requested privileges.

**NOTE:**

Privileges granted may only be exercised at the site(s) and setting(s) that have the appropriate equipment, license, beds, staff, and other support required to provide the services defined in this document. Site-specific services may be defined in hospital or department policy.

This document is focused on defining qualifications related to competency to exercise clinical privileges. The applicant must also adhere to any additional organizational, regulatory, or accreditation requirements that the organization is obligated to meet.

Required Qualifications	
<b>Membership</b>	To be eligible to apply for core privileges in urology, the initial applicant must meet the following criteria
<b>Education/Training</b>	Successful completion of an Accreditation Council for Graduate Medical Education (ACGME), American Board of Medical Specialties (ABMS) or American Osteopathic Association (AOA)-accredited residency in urology
<b>Certification</b>	Current certification or active participation in the examination process with achievement of certification within six years leading to certification in urology by the American Board of Urology or the American Osteopathic Board of Surgery (Urological Surgery)
<b>Clinical Experience (Initial)</b>	Applicants for initial appointment must be able to demonstrate performance of at least 50 urological procedures in a hospital operating room setting, reflective of the scope of privileges requested, during the past 12 months  <b>OR</b> Demonstrate successful completion of an ACGME- or AOA-accredited residency, or clinical fellowship within the past 12 months
<b>Clinical Experience (Reappointment)</b>	Current demonstrated competence and an adequate volume of experience (100 urological procedures in a hospital operating room setting) with acceptable results, reflective of the scope of privileges requested, for the past 24 months based on results of ongoing professional practice evaluation and outcomes. Evidence of current ability to perform privileges requested is required of all applicants for renewal of privileges

## Core Privileges Urology

**Description:** This list is a sampling of procedures included in the core. This is not intended to be an all-encompassing list but rather reflective of the categories/types of procedures included in the core.

Request		<i>Request all privileges listed below.</i>
NIOS	KHGM	Click <b>shaded blue check box</b> to Request all privileges. Uncheck any privileges you do not want to request.
		<b>- Currently granted privileges</b>
		Admit, evaluate, diagnose, treat (surgically or medically), and provide consultation to patients of all ages presenting with medical and surgical disorders of the genitourinary system and the adrenal gland and including endoscopic, percutaneous, and open surgery of congenital and acquired conditions of the urinary and reproductive systems and their contiguous structures. May provide care to patients in the intensive care setting in conformance with unit policies. Assess, stabilize, and determine disposition of patients with emergent conditions consistent with medical staff policy regarding emergency and consultative call services. The core privileges in this specialty include the procedures on the attached procedure list and such other procedures that are extensions of the same techniques and skills.
		<b>Procedures</b> (This listing includes procedures typically performed by physicians in this specialty. Other procedures that are extensions of the same techniques and skills may also be performed.)
		All forms of prostate ablation and removal, including needle biopsy
		Anterior pelvic exenteration (male and female)
		Appendectomy, as a component of a urologic procedure
		Bladder instillation treatments for benign and malignant diseases
		Bowel resection and/or creation of enterostomy as a component of a urologic procedure
		Closure of wound evisceration
		Creation of neobladder, including orthotopic reconstruction and cutaneous continent diversion
		Creation of ileal conduit
		Endoscopy of the genito-urinary system for the diagnosis and treatment of benign and malignant processes, including biopsy, resection, the use of lasers, and insertion/removal of stents
		Extracorporeal shock wave lithotripsy (ESWL)
		Inguinal herniorrhaphy as related to a urologic operation
		Laparotomy for urologic related conditions
		Lymph node dissection- inguinal, retroperitoneal, or pelvic
		Management of congenital anomalies, open or endoscopic, of the genitourinary tract, including epispadias, hypospadias, and urethral valves
		Microsurgery for epididymo-vasotomy and vaso-vasotomy
		Open stone surgery on the kidney, ureter, and bladder
		Percutaneous aspiration or tube insertion as it relates to a urologic procedure or condition
		Performance and evaluation of urodynamics studies
		Performance of history and physical examination
		Plastic and reconstructive procedures on the ureter, bladder, urethra, genitalia, and kidney
		Prostate brachytherapy
		Renal surgery through an established nephrostomy or pyelostomy, including percutaneous nephrolithotomy (PCNL)
		Surgery to correct pelvic prolapse, including grafting (all material types) using vaginal or abdominal approach

	Surgery to restore urinary continence, including peri-urethral injections, insertion of artificial sphincter, and insertion of all mesh slings (synthetic or biologic)
	Surgery of the testicle, scrotum, epididymis and vas deferens, including biopsy, excision, reduction of torsion, and orchiopexy.
	Surgery upon the adrenal gland
	Surgery upon the kidney, including removal, partial removal, reconstruction, for benign and malignant processes, including cryo and thermal ablation techniques
	Surgery upon the penis and foreskin for reconstruction or treatment of benign and malignant disease, including grafting, laser ablation, and insertion of prosthetic devices
	Surgery upon the ureter and renal pelvis
	Surgery upon the urinary bladder for benign or malignant disease, including partial and complete resection, diverticulectomy, and reconstruction
	Urethral fistula repair, including all forms of grafting
	Ventral/flank herniorrhaphy as related to a urologic operation

## Laparoscopic Radical Prostatectomy (LRP)

### Qualifications

- Education/Training** Successful completion of an ACGME- or AOA-accredited residency in urology or general surgery that included training in minimally invasive surgery for LRP  
**OR**  
 Completion of a hands-on CME in LRP, which was supervised by an experienced LRP surgeon  
**AND**  
 All applicants should also have the ability to perform open radical retropubic prostatectomies
- Clinical Experience (Initial)** Demonstrated current competence and evidence of the performance of at least 5 laparoscopic procedures in the past 12 months
- Clinical Experience (Reappointment)** Demonstrated current competence and evidence of the performance of at least 10 laparoscopic procedures which included 5 LRPs in the past 24 months based on results of ongoing professional practice evaluation and outcomes

		Laparoscopic radical prostatectomy (LRP)

## Laparoscopic Nephrectomy

### Qualifications

- Education/Training** Successful completion of an ACGME or AOA accredited residency in urology that included training in laparoscopic kidney surgery
- OR**
- If applicant does not have such formal training, he or she should be able to demonstrate equivalent training that included procedures proctored by an experienced laparoscopic kidney surgeon
- AND**
- Applicant must also have privileges to perform all corresponding open kidney procedures for which he is requesting laparoscopic privileges
- Continuing Education** Continuing education related to laparoscopic kidney procedures is recommended.
- Clinical Experience (Initial)** Demonstrated current competence and evidence of the performance of at least 5 laparoscopic kidney procedures in the past 24 months. Robotic assisted kidney procedures, if performed by the applicant, count towards this requirement
- Clinical Experience (Reappointment)** Demonstrated current competence and evidence of the performance of at least 5 laparoscopic kidney procedures in the past 24 months based on results of ongoing professional practice evaluation and outcomes
- AND**
- Robotic assisted kidney procedures, if performed by the applicant, count towards this requirement

		Laparoscopic Nephrectomy

**Special Non-Core Privileges**

**Description:** If desired, noncore privileges are requested individually in addition to requesting the core. Each individual requesting noncore privileges must meet the specific threshold criteria governing the exercise of the privilege requested including training, required previous experience, and for maintenance of clinical competence.

**Sacral Nerve Modulation for Urinary Control Therapy**

**Qualifications**

**Education/Training**

The applicant must have successful completion of an ACGME/AOA-accredited urology residency training program and be Board-certified or Board-eligible in urology. The applicant would be expected to already have privileges for endoscopic diagnostic and therapeutic procedures of the urinary bladder, urethra and upper tracts.

**AND**

Successful completion of an approved internet-based training program or 3 day didactic course on urinary control therapy. Copy of attendance certificate must be provided.

**AND**

Successful completion of proctoring on at least two test stimulations and two implants.

**OR**

Have a letter of support from a residency training program or a supervising physician or peer from another facility where the applicant previously performed Sacral Modulation.

**Clinical Experience (Initial)**

Applicants, if approved, will be given time-limited provisional privileges for a period not to exceed one year. During this provisional period, the first 2 cases will be proctored and/or reviewed for quality outcomes.

**AND**

It is the applicant's responsibility to provide a list of proctored or reviewed cases to the credentials committee. Once the proctored cases are reviewed, the credential committee may recommend that the applicant relinquish privileges, perform further proctoring or receive unrestricted privileges.

**AND**

If the applicant does not perform 2 proctored/reviewed cases within one year of receiving provisional privileges, a renewal must be requested.

**Clinical Experience (Reappointment)**

Applicants must demonstrate that they have maintained competence through experience or continued medical education in urinary control therapy.

## Robotic Assisted Surgery (da Vinci)

**Description:** NOTE: Privileges granted may only be exercised at the site(s) and setting(s) that have the appropriate equipment, license, beds, staff, and other support required to provide the services defined in this document. Site-specific services may be defined in hospital or department policy. This document is focused on defining qualifications related to competency to exercise clinical privileges. The applicant must also adhere to any additional organizational, regulatory, or accreditation requirements that the organization is obligated to meet.

### Qualifications

<b>Membership</b>	Unrestricted privileges, either open or laparoscopic, for the procedure to be performed without robotic assistance
<b>Education/Training</b>	Successful completion of an ACGME/AOA accredited residency or fellowship training within respective specialty currently credentialed or being credentialed.
<b>Clinical Experience (Initial)</b>	<p>IF RESIDENCY COMPLETED WITHIN LAST THREE YEARS; Applicant must provide letter from the program director affirming qualification to perform the requested procedure(s) using the robotic system; <b>AND</b> Case log of at least 10 cases in the last 12 months. <b>AND</b> If &lt;10 cases, first case will be proctored and once deemed proficient by the proctor, the next four cases performed should be reviewed by the Robotics Committee, department Chair or designee.</p> <p>IF RESIDENCY COMPLETION GREATER THAN THREE YEARS WITH PRIOR ROBOTIC EXPERIENCE; Applicant must provide letter from Hospital Department Chair at a CMS accredited facility affirming qualification to perform the requested procedure(s) using the robotic system. <b>AND</b> Case log of at least 10 cases performed in the last 12 months. <b>AND</b> If &lt;10 cases, first case will be proctored and once deemed proficient by the proctor, the next four cases performed should be reviewed by the Robotics Committee, department Chair, or designee.</p> <p>IF RESIDENCY TRAINED BUT NO PRIOR ROBOTIC EXPERIENCE; Completion of Mini Fellowship Training that includes computer-based education, porcine lab, docking and problem resolution training. <b>AND</b> Observe and document two cases with preceptor physician. <b>AND</b> Perform a minimum of three proctored cases acting as primary physician. <b>AND</b> Submit a letter of documenting proficiency along with the case log or three cases from the proctor to Medical Staff Services. If physician is not deemed proficient, the physician will continue proctored cases beyond the initial 3 cases until deemed proficient by the proctor. <b>AND</b> After deemed proficient, all applicants are required to request full-unrestricted privileges. Temporary privilege may be requested in the interim. <b>AND</b> The next five cases performed shall be reviewed by the Robotics Committee, department Chair, or designee.</p>
<b>Clinical Experience (Reappointment)</b>	<p>Proficient completion of 20 cases, including those at outside institutions during the reappointment cycle. 10 of those cases should be done in the last 12 months. <b>AND</b> If &lt;10 cases in the last 12 months, the first case should be proctored <b>AND</b></p>

Ongoing continuing medical education in robotics

**Additional Qualifications** ALL proctoring at IRS requires approval by the Medical Staff Office prior to performing procedures. Proctors must be currently credentialed, appropriately trained, and recommended members of the medical staff at a Kettering Network Facility. Must have on record an adequate case volume, as defined by Intuitive, representing the types of cases proctored. All proctors are to be approved by the Clinical Service Chair.

**Acknowledgment of Applicant**

I have requested only those privileges for which by education, training, current experience, and demonstrated competency I believe that I am competent to perform and that I wish to exercise at Kettering Health Greene Memorial and/or Soin Medical Center, and I understand that:

- A. In exercising any clinical privileges granted, I am constrained by applicable Hospital and Medical Staff policies and rules applicable generally and any applicable to the particular situation.
- B. Any restriction on the clinical privileges granted to me is waived in an emergency situation and in such situation my actions are governed by the applicable section of the Medical Staff Bylaws or related documents.
