

Nuclear Medicine & PET Kettering Health

Delineation of Privileges

Applicant's Name: _____

Instructions:

1. Click the **Request** checkbox to request a group of privileges.
2. **Uncheck** any privileges you do not want to request in that group.
3. Check off any special privileges you want to request.
4. Sign/Date form and submit with required documentation
5. Applicants have the burden of producing information deemed adequate by the Hospital for a proper evaluation of current competence, current clinical activity, and other qualifications and for resolving doubts related to qualification of requested privileges.

Department Chair: Check the appropriate box for recommendation on the last page of this form. If recommended with conditions or not recommended, provide condition or explanation on the last page of this form.

NOTE:

Privileges granted may only be exercised at the site(s) and setting(s) that have the appropriate equipment, license, beds, staff, and other support required to provide the services defined in this document. Site-specific services may be defined in hospital or department policy.

This document is focused on defining qualifications related to competency to exercise clinical privileges. The applicant must also adhere to any additional organizational, regulatory, or accreditation requirements that the organization is obligated to meet.

Required Qualifications

Education/Training	Completion of a residency/fellowship approved by Accreditation Council of Graduation Medical Education (ACGME), American Board of Medical Specialties (ABMS), or American Osteopathic Association (AOA) in Nuclear Medicine
Certification	Current certification or active participation in the examination process with achievement of certification within six years leading to certification by the American Board of Nuclear Medicine or the American Osteopathic Board of Nuclear Medicine.
Clinical Experience (Initial)	Applicants for initial appointment must be able to demonstrate an adequate number of nuclear medicine procedures, reflective of the scope of privileges requested, in the past 12 months or demonstrate successful completion of an ACGME-, ABMS- or AOA-accredited residency, clinical fellowship, or research in a clinical setting within the past 12 months.
Clinical Experience (Reappointment)	Current demonstrated competence and an adequate volume of experience (500 nuclear medicine procedures) with acceptable results, reflective of the scope of privileges requested, for the past 24 months based on results of ongoing professional practice evaluation and outcomes. Evidence of current ability to perform privileges requested is required of all applicants for renewal of privileges. AND Reappointment requires 20 hours of postgraduate education (CME) directly related to Nuclear Medicine/PET.
Professional Practice Evaluation	All new clinical privileges granted are subject to focused professional evaluation as follows: Retrospective medical record review of Five (5) patient encounters.

Core Privileges Nuclear Medicine

Description: This list is a sampling of procedures included in the core. This is not intended to be an all-encompassing list but rather reflective of the categories/types of procedures included in the core.

Request							Request all privileges listed below.
KHMC	KHMB	KHTR	SOIN	KHGM	KHDO	KHHM	Click shaded blue check box to Request all privileges. Uncheck any privileges you do not want to request.
							- Currently granted privileges
							Diagnose, consult, evaluate, and provide therapy to the metabolic, physiologic, and pathologic conditions of the body utilizing clinical and laboratory methods that employ the measured nuclear properties of radioactive and stable nuclides. The core privileges in this specialty include the procedures on the attached procedure list and such other procedures that are extensions of the same techniques and skills.
							Performance or interpretation of:
							Comply with state and federal regulation regarding the medical use of radioactive materials and management of radioactively contaminated patients and facilities
							Interpret the results of diagnostic examinations of patients using unsealed radionuclides and radiopharmaceuticals
							Perform history and physical exam
							Supervise the preparation, administration, and the use of unsealed radionuclides and radiopharmaceuticals for diagnostic examinations of patients
							Supervise the preparation, administration, and use of unsealed radionuclides for therapeutic purposes
							Core Procedure tests may include:
							Adrenal imaging
							Body composition studies
							Brain imaging
							Cisternography
							Cisternography w/ lumbar puncture
							DEXA and Body Composition
							Diagnostic studies (including NM and PET)
							DXA (Bone Mineral Density)
							Endocrine imaging
							Gastrointestinal imaging
							Hepatic and biliary imaging
							Infection localization
							In-vitro studies
							Lymphoscintigraphy
							Nuclear Cardiac Imaging
							PET Cardiac Imaging
							Procedures (including but not limited to lymphoscintigraphies, CSF Shunt studies, and lumbar punctures).
							Pulmonary imaging

							Renal and genitourinary imaging
							RN Angiography (venography)
							Skeletal (bone) imaging
							SPECT imaging
							Splenic and bone marrow imaging
							Therapeutic procedures with unsealed radionuclides (including but not limited to I-131, Lu-177 Vipivotide Tetraxetan, Lu-177 Dotatate, and Ra-223 dichloride, Sm-153 leixidronam, Y90 microspheres)

Nuclear Medicine & PET Stress Testing - Supervision and Interpretation

Qualifications

Clinical Experience (Initial)	Must have privileges in Nuclear Medicine at KHMC AND Maintenance of ACLS AND Participation in at least 50 stress tests during residency/fellowship OR Experience whereby the individual has performed stress testing on a regular basis and substantial basis for more than (3) three years (minimum of 150 procedures).
Clinical Experience (Reappointment)	Participation in at least 50 stress tests in the past 24 months based on results of ongoing professional practice evaluation and outcomes and maintenance of ACLS. OR Perform 50 proctored stress tests with a qualified proctor.

Acknowledgment of Applicant

I have requested only those privileges for which by education, training, current experience, and demonstrated competency I believe that I am competent to perform and that I wish to exercise at a Kettering Health hospital(s) and I understand that:

A. In exercising any clinical privileges granted, I am constrained by applicable Hospital and Medical Staff policies and rules applicable generally and any applicable to the particular situation.

B. Any restriction on the clinical privileges granted to me is waived in an emergency situation and in such situation my actions are governed by the applicable section of the Medical Staff Bylaws or related documents.
