Internal reference guide for referrals to Kettering Health and Kettering Health Medical Group

In this booklet, you'll find detailed information about our medical service lines and each location in that service. This booklet will allow you to see all locations in a specific service line along with showing you, the Epic name and contact information for those locations. We hope this is an easy way to get the information you need quickly.

We hope this helps you continue to provide the best care to our patients. Thank you for your dedication to make our mission and to the communities we're called to serve.

Bariatric Surgery and Weight Loss

The team at Kettering Health Weight Loss has the skill and experience to support you on your weight-loss journey.

From a medical weight loss program to cutting-edge procedures, we partner with you to plan your healthiest path forward. Our teams will help you incorporate healthy nutrition, exercise, and lifestyle skills into your daily routine and offer insight into eating habits.

Our Approach to Bariatric and Weight-Loss Treatment

We understand it's important to meet your lifestyle and weight-loss goals and needs. We offer you comprehensive solutions from a personalized program to bariatric surgery.

Our medical weight-loss program provides medical supervision and helps you integrate diet, physical activity, and healthy lifestyle skills into your life. Physicians are right by your side from the initial evaluation through the weight-loss phase to monitor those with medical conditions.

Our bariatric program features a team approach to better coordinate your care, including a skilled bariatric surgeon, psychologist, dietitian, and exercise physiologist. We partner with you on your weight-loss journey, providing comprehensive, leading-edge care every step of the way.

Why Choose Us for Weight Loss?

We know it can be difficult to lose weight on your own with diet and exercise. We're here to help you safely and effectively stay on track with your weight-loss goals.

We have achieved the highest standards of care for bariatric surgery: our bariatric surgery center at Kettering Health Miamisburg is accredited by the **Metabolic and Bariatric Surgery Accreditation and Quality Improvement Program (MBSAQIP)**.

If you want to lose weight and keep it off, we offer support services at several convenient locations. Our teams work with you to make lifestyle changes to lose weight and improve your overall health.

Your care includes the following:

- Bariatric education
- Exercise training
- Monthly support groups
- Nutritional counseling
- Psychological counseling

Programs and Treatments:

- Non-surgical Weight Loss
- Weight-loss Surgery

Behavioral and Mental Health

Mental health is as important as your physical health. No matter what you're going through, we're here to provide you with the comprehensive behavioral and mental-health services you need. Treatment programs are carefully tailored to an individual's diagnosis, condition, and situation. Services are covered by most insurance companies. Medicare and Medicaid are accepted.

Our Approach to Behavioral and Mental Health

One in five Americans lives with a mental illness. If you're struggling, you're not alone. Kettering Health is here to provide the help you need to start on the road to recovery, whether you're suffering from depression, PTSD, anxiety, or psychosis.

Why Choose Us for Mental and Behavioral Health?

We understand that every person and situation is unique. We offer a variety of treatment options in addition to medication and counseling. We are dedicated to treating the whole person: mind, body, and spirit.

- Outpatient Ambulatory Services
- Medication management and follow up
- Psychiatric evaluation
- Individual therapy

Treatment programs are carefully tailored to an individual's diagnosis, condition, and situation.

With the comprehensive expertise of our psychiatrists, therapists, and psychologists, we treat most mental-health disorders.

Behavioral Health for First Responders

We offer the only Intensive Outpatient Program (IOP) in the Dayton area for first responders. This specialty program focuses on first responders, active duty and retired military, and healthcare/mental healthcare professionals suffering from PTSD, providing them with specialty care when they need it most.

Adult Intensive Outpatient Program (IOP)

This program is intended for people 18 years or older who have a primary psychiatric diagnosis of a mood or anxiety disorder. Participants are capable of functioning independently, and most work or attend college when they are not attending the program. This program is an intensive group therapy program over four to six weeks for nine to 12 hours per week. IOP is ideal for people recently discharged from inpatient programs or in some cases, as an alternative to inpatient treatment. A multidisciplinary team designs an individual treatment plan for each person.

Brain and Spine Care

Kettering Health brings nationally recognized brain and spine care to western Ohio. Through highly skilled specialists and leading-edge treatments, you'll find the high level of care found at leading national programs, with our personalized approach and convenient locations.

Our Approach to Brain & Spine Care

From diagnosis to recovery, your comfort and peace of mind are at the heart of everything we do.

Why Choose Us for Your Care?

Accreditation: All of our emergency centers are accredited in stroke care by the Accreditation Commission for Health Care (ACHC). This recognition means we're always prepared to provide lifesaving stroke treatment.

Convenience: We have state-of-the-art facilities throughout western Ohio. Meet with our team of neuroscience experts to receive personal consultations and comprehensive care close to home.

Expertise: Our highly skilled team includes board-certified and fellowship-trained specialists. Neurologists, neurosurgeons, neuroradiologists, nuclear imaging specialists, and many other providers come together to provide you with exceptional care.

Quality: As leaders in brain and spine treatment and advanced stroke care, we are at the forefront of quality neurological care. We are proud recipients of the Guidelines[®]-Stroke Gold Plus Quality Achievement Award.

Support: Certified neuroscience nurses guide you through every stage of your journey. They help you communicate with your care team, prepare you for treatment, and connect you to support services.

Technology: We're often the first to bring the latest diagnostic and treatment technology to the region. This means you get access to the latest evidence-based tests and treatments that are not available elsewhere.

Programs and Treatments:

- Brain and spine diagnosis
- Brain tumor care
- Deep brain stimulations (DBS)
- Endovascular surgery
- Epilepsy care
- Gamma knife radiosurgery
- Movement disorder care
- MRI guided focused ultrasound
- Neurovascular care
- Spine care
- Stroke care

Conditions We Treat:

- Acute spinal cord injury
- Ankylosing spondylitis
- Aphasia
- Ataxia
- Bell's palsy
- Brain cyst
- Cervical spondylosis
- Cervicocephalic dissection
- Ependymal tumors
- Epilepsy and seizures
- Essential tremor
- Glioblastoma
- Gliomas
- Migraine headaches
- Parkinson disease and dementia
- Scoliosis
- Traumatic brain injury
- Trigeminal neuralgia

Breast Health

Kettering Health Breast Centers use leading-edge technology to deliver a breast assessment you can trust. Our expert team customizes your experience every step of the way.

Our Approach to Breast Health

We believe awareness and early detection are the best ways to fight breast cancer. That's why we use advanced imaging to deliver high-quality screenings every time. To enhance your experience, we pay special attention to your comfort and preferences. Peace of mind and a precise evaluation are never far from home.

Why Choose Us for Breast Evaluations?

We deliver comprehensive, patient-centered care. When you trust us with your breast health, you can expect the following:

- **Advanced technology:** We use artificial intelligence and software to precisely analyze your mammogram and determine your breast density. We have state of the art 3D GE Pristina Mammography Units.
- **Cancer risk assessment:** Analyzing your individual risk factors and family history, we determine if you are at a higher risk for developing a hereditary cancer syndrome. We use that information to develop your next steps.
- **Convenient locations:** We have 15 locations across western Ohio.
- **Spa-like Atmosphere:** Our Sensory Suite allows you to choose your own relaxing environment during the mammogram. You can choose between a beach, garden, or waterfall. The sensory suite engages three senses, sight, sound, and smell to reduce anxiety and create a more pleasant experience.
- **More control:** We offer patient-assisted compression during your mammogram to minimize your discomfort. Our technologist will start the compression, and then provide you with a remote so you can control and finish the compression yourself.
- **Specialized patient support:** Our certified breast imaging navigators are here to answer your questions. If you need additional imaging, they'll explain your results and coordinate your next steps.

Programs and Treatments:

- Bone Density Testing (DEXA)
- Breast Biopsy
- Breast Health
- Breast MRI
- Breast Ultrasound including Automated Breast Ultrasound (ABUS) for dense breast tissue
- 3D Mammography (screening and diagnostic)
- Cancer Risk Assessment)
- Contrast Enhanced Mammography (CEM)

Conditions We Identify

- Breast Cancer
- Breast Cancer: Risk Factors
- Breast Lumps, Common

Cancer Care

We are the leading cancer care experts. Your patient will receive personalized and compassionate care from experienced cancer specialists dedicated to their health and healing.

Our Approach to Cancer Care

We provide personalized treatment based on your patient's unique needs and goals.

With four cancer centers across western Ohio, we make sure patients receive the care they need, when they need it.

Cancer can affect a patient's life in countless ways, so we take extra steps to support their well-being. We use a holistic approach to treat the whole person—mind, body, and spirit.

Why Choose Us for Your Patient's Cancer Care?

Advanced treatments and comfort: From cutting-edge radiation oncology equipment to comfortable chairs for chemotherapy infusions, we strive to improve well-being whenever possible.

All the services they need: We provide comprehensive cancer screening, evaluation, and treatment services for nearly every cancer type. At our multidisciplinary clinics, patients can see multiple specialists (surgeon, radiation oncologist, and other providers) in one day.

Elite standards: We have accreditation through the American College of Surgeons Commission on Cancer and are QOPI certified under ASCO (American Society of Clinical Oncology). Your patient will receive care from a world-class program with multiple outstanding achievement awards.

Integrative medicine: From massage therapy to educational classes, we offer countless resources to support physical, mental, and spiritual healing.

Seamless care: Our specialists make it a priority to communicate with you and other members of the care team. Your patients will receive the same high-quality personalized attention at all our locations.

Emergency and Trauma Care

We are the region's top choice for emergency and trauma care. Our facilities offer lifesaving treatments that are available 24 hours a day, 365 days a year to treat critical injuries, illnesses, and non-life-threatening conditions.

Our Approach to Emergency and Trauma Care

Kettering Health delivers fast, effective emergency care close to home. We offer community-based emergency and trauma services throughout western Ohio. With 14 comprehensive emergency centers—more than any other healthcare system in the region—we're there when you need us the most.

Why Choose Us for Emergency and Trauma Care?

Highlights of our regional emergency and trauma centers include the following:

- **Care for older adults:** Our emergency centers are accredited as senior-friendly by the American College of Emergency Physicians (ACEP). By meeting guidelines for the ACEP's Geriatric Emergency Department Accreditation, we improve the emergency-room experience for older adults and deliver an extra level of attentive care.
- **Community involvement:** Our emergency centers coordinate extensive outreach programs, including EMS training and safety education. We're here not only to treat emergencies when they happen but also to improve the overall health of the cities and towns we serve.
- **Dedicated trauma care:** When trauma patients need advanced levels of care, our designated trauma centers provide coordinated care in a critical situation. By providing resources that range from emergency stabilization, resuscitation, and surgery, we are equipped to provide care for traumatic injuries.
- **Expert team:** As part of Kettering Health, our emergency and trauma centers connect you with some of the most experienced specialists in the region. Skilled trauma surgeons, neuroradiologists, and cardiologists are on-call to perform urgent interventional procedures for trauma, stroke, and heart attack.
- **Innovative technology:** Our emergency centers feature advanced technologies, including robot-assisted telestroke services and electronic data-sharing capabilities with first responders. We optimize every aspect of emergency treatment to ensure you get the fastest, most efficient care possible.
- **National accreditation:** Kettering Health Main Campus has earned accreditation as a Comprehensive Stroke Center by the Accreditation Commission for Health Care (ACHC). Our other emergency centers are certified Stroke Ready Centers, which means our locations have the expert staff and technology to provide lifesaving stroke care.
- **Seamless transfers:** Whether it's on the ground with our fleet of vehicles (mobile ICUs, ambulances, and ambulettes) or in the air with our medical-helicopter partner, MedFlight, we can cover any of your transportation needs.

Endocrinology and Diabetes

Our team is committed to providing you with comprehensive and personalized diabetes self-management education. Our specialists help you learn how to manage your diabetes through self-management skills training, nutrition counseling, education, and dedicated care.

Our Approach to Endocrinology and Diabetes

We understand how difficult a diabetes diagnosis can be. We will walk with you every step of your journey. Our expert team will provide you with the best possible care, treatments, and education. We believe learning to self-manage is the most important thing for an individual living with diabetes, and we want to help you succeed. Applying these skills can reduce risks and complications associated with diabetes and improve your overall quality of life.

Why Choose Us for Endocrinology and Diabetes Care?

Our team of healthcare professionals have the experience, skills, resources and most all, they are caring and compassionate and will take time to work with you to improve your diabetes. We offer both in person and digital health (telehealth) appointments.

Standard of Excellence

Kettering Health Medical Group Endocrinology and Diabetes is recognized by the American Diabetes Association for meeting the national standards for excellence in diabetes education. Our center offers patient education, support services, and comprehensive care.

Comprehensive Care

Our expert team provides you with the best possible care, treatments, and education. Our team includes the following

- Board-certified endocrinologists
- Board-certified physician assistants
- Board-certified nurse practitioners
- Board-certified diabetes educators
- Registered nurses
- Registered dietitian

Heart and Vascular Care

At Kettering Health, cutting-edge heart and vascular care is close to home. We offer expertise and specialized treatments, including some options not available elsewhere. Our team approach elevates your care and supports your whole health.

Our Approach to Heart and Vascular Care

We bring today's latest heart-and-vascular treatment innovations to western Ohio. Our wide network helps you prioritize your heart health without having to travel far. Whether you need preventive care or lifesaving heart surgery, you can trust our team to focus on your long-term health and well-being.

Why Choose Us for Heart and Vascular Care?

Kettering Health and our physicians provide the highest level of cardiovascular care to western Ohio communities. When you choose us for heart and vascular care, you can expect the following:

Advanced therapies: We have been a strong leader in heart surgery for decades. We offer cutting-edge surgical and minimally invasive therapies that deliver life-changing results and take less of a toll on your body. Many patients go home the day of (or the day after) certain procedures feeling like a new person.

Convenience: Keeping your heart healthy is important, and it doesn't need to be a hassle. We provide core cardiac services at each of our medical centers and have multiple outpatient locations to keep your care close to home.

Culture of excellence: Our medical centers (and our whole health system) consistently rank as national leaders in care quality and outcomes. We were named a Watson Health™ 15 Top Health System. Kettering Health Main Campus was named one of the nation's 50 Top Cardiovascular Hospitals™ by Fortune and PINC AI™. Kettering Health Dayton earned a three-star rating from The Society of Thoracic Surgeons (STS) for its patient care and outcomes in isolated coronary artery bypass grafting surgeries.

Team of experts: Our team of board-certified and fellowship-trained cardiac specialists includes cardiothoracic surgeons, vascular surgeons, and subspecialized cardiologists, including electrophysiologists. We collaborate to determine the best next steps in your care according to your unique situation and goals.

Wide range of options: We offer a full spectrum of heart-and-vascular treatments, including specialized options few other centers provide. You can trust us to care for almost every type of heart and vascular concern, from complete vein care to advanced heart failure.

Whole-person care: Your heart is just one piece of you. Our whole-body care approach means we concentrate on maximizing your mental, spiritual, and physical health. Lifestyle medicine (such as weight loss or quitting smoking) can often make a big difference in your heart health and quality of life. Our support services assist you in making healthy changes.

Orthopedic Care and Sports Medicine

For decades, Kettering Health has provided trusted healthcare and advanced orthopedic services to the communities of western Ohio. Our highly trained specialists work together to help you move past pain, so you can live life on your terms.

Our Approach to Orthopedic Care

We coordinate care to get you prompt answers, support your recovery, and maximize your quality of life. Physicians, nurses, and rehab therapists collaborate to help you reach your health and wellness goals.

Why Choose Us for Orthopedic Care?

People throughout western Ohio trust Kettering Health with their orthopedic care because of our

Culture of excellence: We've received accolades as one of the top 15 health systems in the U.S., pointing to our relentless commitment to patient safety, outcomes, and high-quality care.

Complete orthopedic care: Our experts evaluate, diagnose, and treat all types of bone and soft-tissue problems, including sports injuries, total joint replacement, and rare disorders. We offer comprehensive evaluation and treatment services, including wide-ranging specialty orthopedic rehab therapies and extensive sports medicine services.

Convenient locations: We provide orthopedic services in seven medical centers and more than 50 outpatient facilities. Our expansive reach gives you more choices, making it easier to get the care you need.

Commitment to community health: We've served this community for decades and are invested in improving everyone's long-term health. We offer programs to help people overcome obstacles to care, such as hand surgery for those uninsured.

Experience and specialty training: Each year, our board-certified orthopedic surgeons perform more than 10,000 surgeries. Many of our physicians received fellowship training in sports medicine and hand surgery.

Top expertise and innovation: Our Hand Center (the only in the region) provides specialized surgeries and rehab therapies. We were the first to bring advanced robotic joint-replacement technology that provides personalized implants.

Conditions We Treat:

- Achilles tendon injuries
- Hip pain
- Joint pain
- Knee pain
- Torn meniscus
- Patellar tendonitis (Jumper's knee)
- Carpal tunnel syndrome

Treatments:

- Hand surgery
- Hip replacement
- Injections for orthopedic conditions
- Joint replacement
- Knee replacement
- Orthopedic rehab and therapy
- Shoulder replacement

Pain Management

Living with pain can be exhausting and frustrating. At Kettering Health, we treat the source of your pain, not only the symptoms. We will work with you to find the best treatment plan for you and your needs.

Our Approach to Pain Management

We use state-of-the-art methods to identify and treat the sources of pain, helping you recover and get back to your life. Through exams, we provide patients with customized treatment plans to help them cope with and reduce pain.

Why Choose Us for Pain Management?

Evaluating your pain and symptoms helps us develop the most effective treatment option for you. Patients may receive a complete physical work-up, a referral to a specialist, or have recommendations sent to their primary care physician. Possible treatments include over the counter remedies, injections, physical therapy, or possible medication management. We will work with you and your referring provider to determine a treatment plan that suits your unique needs.

Pharmacy

We want home to be your first stop when you're ready to leave the hospital. Kettering Health pharmacies quickly fill prescriptions on-site so you can focus on your comfort and recovery.

Comprehensive Pharmacy Services

The retail pharmacies at Kettering Health provide the medications you or loved ones need when you need them. We offer prescription and over-the-counter medications for common illnesses, including allergies, high blood pressure, antibiotics, colds, and flu.

We also make sure patients managing chronic and complex illnesses have specialized care. Our specialty pharmacists use their expertise to help individuals with a range of conditions, from cancer to multiple sclerosis. We even offer infusion services at Kettering Health Washington Township for patients who need them.

If you need medications at home, we provide long-term medication delivery through a secure, streamlined service. Choosing from customizable packaging and distribution options, you receive your medicine efficiently.

We make it easy for you to remember to take your medications, too. Our packaging can combine your day's pills into one convenient packet.

Why Choose Us?

The pharmacists at Kettering Health go beyond filling prescriptions to make sure your care is consistent and coordinated.

- **Personal Pharmacist:** Your Kettering Health pharmacist is just that: your pharmacist. The same pharmacist will directly work with you throughout your care. They'll help you get the most from your medicine and keep your physician updated along the way.
- **Competitive Pricing:** We break down barriers to the treatment you need and we accept most commercial insurance plans.
- **Convenience:** Kettering Health operates 11 pharmacies located in most of our care facilities. We strive to fill your prescriptions within 15 minutes and offer home delivery if that's more convenient for you.

Primary Care

Your primary care provider is your entryway to health and wellness. Our physicians and advanced practice providers give their best care for a better you.

Our Approach to Primary Care

We provide the support you and your family need for your best health. Whether you're managing a chronic health condition or want to stay ahead of routine screenings, we tailor our care to meet your health goals.

Why Choose Us for Primary Care?

RN Care Managers: If you need additional help managing a complex or chronic health condition or are at a higher risk for increased complications, your care team can connect you to an RN Care Manager.

The RN Care Manager advocates for your health by developing a care plan for you and following your progress as you work toward your goals.

RN Care Managers can assist with

- Development of a personalized, patient-centered care plan
- Ensuring patient has an advocate for needed services and health education
- Monitoring care plan goals to ensure progress is being made
- Providing access to appropriate community services, resources and health education
- Managing communication amongst healthcare providers as patient moves between care settings
- Help decrease avoidable emergency room visits and hospitalizations

Primary Care First

More than 50 Kettering Health Primary Care practices participate in Primary Care First, a program by the Centers for Medicaid and Medicare (CMS) that aims to transform and improve quality and patient experience while reducing costs.

The program is tailored to address patients with complex chronic conditions and serious illnesses. CMS believes that if this model is followed, all patients will have better access to advanced primary care.

Rehabilitation and Therapy

We know recovering from an injury can be stressful. We're here to provide you the best treatment for getting you back to feeling better.

Kettering Health's Approach to Rehab and Therapy Services

Our team works with you and your family to help you regain comfort, confidence, and independence. Our therapists will provide you with an individualized, comprehensive treatment plan to get you back to your best health.

Why Choose Kettering Health for Therapy?

You will find wellness-focused rehabilitation care at Kettering Health.

Physical therapy: Our physical therapists focus on improving patients' functional ability and movement. Therapists evaluate each patient to develop specific programs to reduce pain and improve quality of life.

Occupational therapy: Our occupational therapists focus on helping patients return to everyday activities, such as bathing and getting dressed. They also provide services like hand therapy, wheelchair fitting, and custom splints to assist in recovery.

Speech-language pathologist: Our speech therapists evaluate and treat patients who have communication disorders or swallowing problems. Therapists provide many services, including helping with memory and attention, forming words and making proper sounds, and swallowing.

Programs and Treatments:

- Aquatic Therapy
- Blood Flow Restriction
- Dry Needling
- Fitness Classes
- Return to Sport Test
- Functional Capacity Evaluation
- Hand Therapy
- IASTM Therapy
- Inpatient Rehabilitation Program
- Inpatient Therapy
- Lymphedema Therapy
- Occupational Therapy
- Orthopedic and Sports Physical Therapy
- Pelvic Floor Physical Therapy
- Performing Arts Medicine
- Physical Therapy
- Speech Therapy
- Neurologic Physical Therapy, Occupational and Speech Therapy
- Driving Rehab

Sleep Care

At Kettering Health, you receive coordinated, personalized care from skilled sleep specialists. We focus on your whole health to find the best treatment for your unique sleep needs so you can feel restored.

Our Approach to Sleep Care

We don't just treat sleep conditions—we treat people. At Kettering Health, we provide you with coordinated care focused on your overall well-being, connecting you with the best treatment for your needs.

Our sleep doctors apply advanced skills and specialized knowledge, ranging from sleep dentistry to psychology so you can finally get restful sleep.

Why Choose Us for Sleep Care?

Our specialists treat sleep disorders, common and complex, with skill and compassion. We provide coordinated, accessible care so you can face the day ready for action. We use the latest treatments to care for your sleep issues, such as an implanted device for sleep apnea, that are not widely available elsewhere.

Conditions We Treat

- Insomnia
- Sleep Apnea
- Narcolepsy
- Sleep Problems

Surgical Services

Needing surgery can feel intimidating. That's why every patient receives specific, comprehensive care, from scheduling appointments to understanding recovery at home.

Our Approach to Surgery

We have an experienced team of surgeons, anesthesia providers, nurses, and others ready to serve you and get you back to better health. We work with our patients and their families to deliver expert care before, during, and after surgery.

Why Choose Us for Surgery

We're here to help you feel at ease as you take this next step to better health.

No matter your reason for surgery, you can have confidence our skilled doctors will give you their best so you can get back to your best health. All of our physicians are board-certified or board eligible. They have the experience and technology necessary to ensure peace of mind throughout your surgical journey.

We are also committed to your post-surgery care. Kettering Health's Enhanced Surgical Recovery Program supports you before and after your procedure. This program focuses on your care to get you back to the lifestyle you want.

Robotic-assisted Surgery

Robotic-assisted surgery offers patients a minimally invasive option with advanced precision. Robotic-assisted surgery helps patients return to normal activity with less pain, less scarring, and less recovery time.

Kettering Health uses the da Vinci System®, among many other systems, for robotic-assisted surgeries. This system features a magnified 3D high-definition vision system and tiny instruments that bend and rotate far greater than the human wrist.

Robotic-assisted surgery enables us to leverage the irreplaceable intuition and careful expertise of our highly skilled surgeons with the advanced precision and technological accuracy of today's innovations in robotics.

Kettering Health offers the following robotic-assisted surgical options:

da Vinci® Surgical System

- Colon resection
- Gallbladder removal
- Hysterectomy
- Hernia repair
- Prostate removal (prostatectomy)
- Organ lobe removal (lobectomy, most often lung)

Brainlab Cirq® Robotics Arm

- Multiple spine surgeries

Stryker Mako Robotic Arm

- Knee replacement (partial and full)
- Hip replacement

Zimmer Biomet Rosa System

- Knee replacement (partial and full)

Urogynecology

Our urogynecologists specialize in treating health issues that affect your urinary, bowel, and sexual function. We use innovative treatments and minimally invasive procedures to restore your comfort and confidence.

Our Approach to Pelvic and Bladder Care

At Kettering Health, we understand urogynecologic conditions can affect your confidence and lifestyle. One in every four women will experience a pelvic floor disorder, often after childbirth or during menopause. Our urogynecologists use their experience and innovative treatments to correct the issue.

Why Choose Us for Urogynecology?

Our specialists offer urogynecology care that includes the following:

- **Care close to home:** We provide expert urogynecology treatments and care at locations throughout western Ohio.
- **Coordinated care:** Our specialists collaborate with your OB-GYN and primary care physician, so you don't waste time and money repeating exams or tests.
- **Compassionate expertise:** Our board-certified urogynecologists have decades of experience treating pelvic and bladder conditions. We know how to correct the issues that severely impact your quality of life.
- **Innovative treatments:** We treat patients' issues without surgery whenever possible. Our MonaLisa Touch® procedure uses a laser to restore vaginal tissue. This procedure has no known side effects.
- **Minimally invasive surgery:** Our expert surgeons use minimally invasive surgery, when needed, to correct your pelvic and bladder issues. Our techniques are less painful than traditional (open) surgery and allow for quicker recovery.

Complete care for all urogynecology conditions?

We treat bladder and pelvic floor issues including the following:

- Atrophy (low estrogen)
- Bladder pain syndromes
- Bowel and bladder emptying disorders
- Incontinence
- Menopause and postmenopausal conditions
- Painful intercourse
- Prolapse of pelvic organs

Urogynecology treatments we offer

Our specialists evaluate your needs to determine the right treatment. Options include the following:

- MonaLisa Touch® (to restore vaginal tissue)
- Pelvic organ prolapse surgery
- Pelvic floor physical therapy

Women's Health and Maternity Care

Our Approach to Women's Health

Our women's health specialists are here to help you through whatever health challenges you may face. Whether you are having a baby, having a breast health concern, or are coming for a routine check-up, we offer specialized women's health services close to home.

Why Choose Us for Women's Health?

Collaborative care: Our gynecology, maternity, breast health, and urogynecology teams work closely together. All your care is coordinated and tailored to your needs and goals.

Convenient locations: With 14 medical centers, four maternity centers, and more than 120 Kettering Health Medical Group offices, quality care is close to home.

Established midwifery program: Our certified midwives deliver more than 400 babies a year. They offer a patient-centered approach before, during, and after childbirth.

Renowned treatment: We are recognized as a Center of Excellence by the Surgical Review Corporation for minimally invasive surgery, minimally invasive gynecology, and robotic-assisted surgery. That means we treat complex conditions while meeting the highest standards of quality and safety.

Unparalleled expertise: Our physicians and nurses are dedicated professionals who hold specialized certifications.

Wide-ranging support: Our care extends beyond our facilities. We offer support services that include prenatal classes, mental health care, and breastfeeding support to ensure you have everything you need once you go home.

Programs and Treatments:

- Well-woman visit
- Contraception (birth control)
- Gynecologic cancer screening
- Gynecologic surgery
- Endometrial ablation
- Endometriosis surgery
- Hysterectomy
- Myomectomy (uterine fibroid removal)
- Oophorectomy (Ovary removal)
- Salpingectomy (Fallopian tube(s) removal)

Wound Care

If you have suffered from a wound of any size, consider seeking the expertise of our wound-care specialists to provide healing.

Our Approach to Wound Care

Kettering Health offers programs and treatments to help you improve and heal difficult-to-treat wounds. We offer collaborative care with a team of doctors who specialize in wound healing, hyperbaric medicine, and amputation prevention. Our team will assess your wound and determine the best treatment plan. In most cases, care is provided on an outpatient basis without the need for surgery.

We have four wound centers, two of which have hyperbaric chambers, to treat wounds that aren't healing on their own.

Why Choose Us for Wound Care?

We have wound centers located across Greater Dayton so you can receive expert care close to home. We see excellent results in our Kettering Health Wound Centers, where we have a 95 to 98% wound healing rate. Typically, it takes an average of 66 days to heal a wound at one of our centers compared to the national benchmark of 84 days.

If hyperbaric medicine is needed to accelerate healing, we offer state-of-the-art hyperbaric chambers, with Kettering Health Miamisburg housing the largest-in-diameter hyperbaric chamber in Ohio.

Whatever your needs, we're here to care for you and get you back to your best health.

Programs and Treatments:

- Wound Care
- Hyperbaric Oxygen Therapy
